Austrian Eco-Label for selected factories

SALESIANER has been awarded the Austrian Eco-Label UZ70 for its rental textile services at several of its factories. The Eco-Label sets out requirements relating, amongst other things, to detergents, washing processes and operational procedures. The award applies to the respective certified factories and the corresponding rental textile services.

UN Global Compact

SALESIANER is a participant in the UN Global Compact, an international network for responsible business conduct. Through its participation, SALESIANER is committed to the ten principles of the UN Global Compact in the areas of human rights, labour standards, the environment and anti-corruption.

Management systems and certifications

SALESIANER has certified management systems in several areas: ISO 9001 for quality management, ISO 14001 for environmental management, ISO 50001 for energy management, ISO 45001 for occupational health and safety, and ISO 30415 for diversity and inclusion at its Vienna and Wiener Neustadt factories. These certifications document audited management systems and defined processes in the respective areas covered.

Photovoltaics at SALESIANER sites

Over the past few years, SALESIANER has installed photovoltaic systems on the roofs of selected factories. In the 2025/2026 financial year, self-consumption from our PV systems amounted to around 1,193 MWh.

Sustainability reporting

SALESIANER published its first sustainability report in 2016 and was awarded the Austrian Sustainability Reporting Award for its reporting. The reports have been published annually since 2022. They contain information on the company's key topics, key performance indicators and objectives.

klimaaktiv and energy efficiency measures

SALESIANER has been a project partner of klimaaktiv since 2013. As part of its operational investments, the company regularly implements measures in the areas of energy use, plant engineering and process optimisation. In Austria, its network of sites also enables short transport routes between its factories and customers.
